Statewide events this quarter:	42	28	70

**Types of Substances Released:**

Adhesive NOS

**Number of Victims:** 0

**Types of Injuries Sustained:** N/A

**Injury Outcomes:** N/A

**Number of Events with Evacuations:** 0

**Number of People Evacuated:** N/A

**Interesting Events:**

An employee from one company was picking up a barrel from another company to use it for storage of work materials. The barrel had been stored on a loading dock where it gathered rainwater. After loading the barrel on the back of the pickup truck the barrel was noticed leaking. Access to the road was blocked until the area was secure. The chemical leaking was used to spray on adhesive for truck-bed liners.

The other event reported was a minor transportation spill.

\* Preliminary data – subject to change
